This work takes a real-world, single focus company approach in every chapter. The decision-making focus shows the relevance of financial accounting regardless of whether the student has chosen to major in accounting.

\* The Navigator -- the centerpiece of the learning system that empowers students to succeed consists of \* A checklist at the beginning of each chapter, outlining text features and study skills needed \* A series of check boxes to prompt students to use the learning aids in the chapter, and set priorities while studying \* Accounting in Action and Technology in Action boxes give students glimpses into the real world of business-including Ethics Insights, International Insights, e-Business Insights, and Business Insights. \* Student and Instructor Approved Pedagogy includes marginal accounting equation analyses, and financial statements and ratio analysis throughout the text. The strategic use of color, photographs, and illustrations, rated #1 in instructor satisfaction. \* Infographics -- These memorable visual reminders help students visualize and apply accounting concepts to the real world. \* Unparalleled Readability -- Students using Accounting Principles rated their text "easy to read" more frequently than students using other accounting principles textbooks. The new edition continues to reflect this conversational style and highly rated clarity. \* Useful, Thought-Provoking End-of-Chapter Material -- including Self-Study Questions, Questions, Brief Exercises, Exercises, A & B Problem Sets and Broadening Your Perspective which is divided into two sections: \* Financial Reporting and Analysis -- includes financial reporting problems, comparative analysis problems, Interpreting Financial Statements: A Global Focus, and Exploring the Web exercises. \* Critical Thinking -- includes Group Decision Case, Communication Activity, and Ethics Case.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
