Horace G. Danner's A Thesaurus of English Word Roots is a compendium of the most-used word roots of the English language. As Timothy B. Noone notes in his foreword: "Dr. Danner's book allows you not only to build up your passive English vocabulary, resulting in word recognition knowledge, but also gives you the rudiments for developing your active English vocabulary, making it possible to infer the meaning of words with which you are not yet acquainted. Your knowledge can now expand and will do so exponentially as your awareness of the roots in English words and your corresponding ability to decode unfamiliar words grows apace. This is the beginning of a fine mental linguistic library: so enjoy!" In A Thesaurus of English Word Roots, all word roots are listed alphabetically, along with the Greek or Latin words from which they derive, together with the roots' original meanings. If the current meaning of an individual root differs from the original meaning, that is listed in a separate column. In the examples column, the words which contain the root are then listed, starting with their prefixes, for example, dysacusia, hyperacusia. These root-starting terms then are followed by terms where the root falls behind the word, e.g., acouesthesia and acoumeter. These words are followed by words where the root falls in the middle or the end, as in such terms as bradyacusia and odynacusis.. In this manner, A Thesaurus of English Word Roots places the word in as many word families as there are elements in the word. This work will interest linguists and philologists and anyone interested in the etymological aspects of English language.

Strabo's Geography, completed in the early first century AD, is the primary source for the history of Greek geography. This Guide provides the first English analysis of and commentary on this long and difficult text, and serves as a companion to the author's The Geography of Strabo, the first English translation of the work in many years. It thoroughly analyzes each of the seventeen books and provides perhaps the most thorough bibliography as yet created for Strabo's work. Careful attention is paid to the historical and cultural data, the thousands of toponyms, and the many lost historical sources that are preserved only in the Geography. This volume guides readers through the challenges and complexities of the text, allowing an enhanced understanding of the numerous topics that Strabo covers, from the travels of Alexander and the history of the Mediterranean to science, religion, and cult.

The Atlantic named this author as possibly Steve Bannon's contact in the White House (Rosie Gray, The Atlantic Feb 10 2017: " 'Think you should speak directly to my WH cutout / cell leader,' Yarvin said in an email. 'I've never met him and don't know his identity, we just DM on Twitter. He's said to be 'very close' to Bannon...Goal is to intimidate Congress with pure masculine show of youth, energy. Trump is said to know, will coordinate with powerful EOs..."); and a recent Vox article (Tara Isabella Burton, Vox June 1 2018) claimed that he is the "text" to Jordan Peterson's "subtext," and a "distilled" form of Peterson. Distilled means purer: yes, so why not read and understand the purer version? T. I. Burton also adds in this article that this author BAP is a kind of priest-king to thousands on Twitter and outside and is possibly leading a spiritual reawakening.Some say that this book, found in a safebox in the port area of

Kowloon, was dictated, because Bronze Age Pervert refuses to learn what he calls "the low and plebeian art of writing." It isn't known how this book was transcribed. The contents are pure dynamite. He explains that you live in ant farm. That you are observed by the lords of lies, ritually probed. Ancient man had something you have lost: confidence in his instincts and strength, knowledge in his blood. BAP shows how the Bronze Age mindset can set you free from this Iron Prison and help you embark on the path of power. He talks about life, biology, hormones. He gives many examples from history, both ancient and modern. He shows the secrets of the detrimental robots, how they hide and fabricate. He helps you escape gynocracy and ascend to fresh mountain air.The pricing, he insisted on against all advice. It refers to the lucky 969 Movement of Burma, led by the noble monk Wirathu.Praise be to the Pervert. Praise be to his teaching of peace.Be careful.

250 years ago, Ascalon burned . . . Desperate to defend his land from advancing hordes of bestial charr, King Adelbern summoned the all-powerful Foefire to repel the invaders. But magic can be a double-edged sword—the Foefire burned both charr and human alike. While the charr corpses smoldered, the slain Ascalonians arose again, transformed by their king’s rage into ghostly protectors and charged with guarding the realm . . . forever. The once mighty kingdom became a haunted shadow of its former glory. Centuries later, the descendants of Ascalon, exiled to the nation of Kryta, are besieged on all sides. To save humankind, Queen Jennah seeks to negotiate a treaty with the hated charr. But one obstacle remains. The charr legions won’t sign the truce until their most prized possession, the Claw of the Khan-Ur, is returned from the ruins of fallen Ascalon. Now a mismatched band of adventurers, each plagued by ghosts of their own, sets forth into a haunted, war-torn land to retrieve the Claw. Without the artifact, there is no hope for peace between human and charr—but the undead king who rules Ascalon won’t give it up easily, and not everyone wants peace!
