Chapter 9 – Polynomials and Factoring Answer Key CK-12 Basic Algebra Concepts 9 9.7 Zero Product Principle Answers 1. The only way a product is zero is if one or both of the terms are zero. 2. Because they are not set equal to zero. 3. They are a sum, not a product 4. The first factor is a fraction that cannot be set equal to zero. 5.

Chapter 9 Polynomials and Factoring Answer Key

Basics of Algebra cover the simple operation of mathematics like addition, subtraction, multiplication, and division involving both constant as well as variables. For example, $x + 10 = 0$. This introduces an important algebraic concept known as equations. The algebraic equation can be thought of as a scale where the weights are balanced through numbers or constants.
