Other than that, same tuning idea applies. First step in tuning is to obtain and set the correct vacuum AFRs for various RPMs, which should be done at 80C+ ECT. For each RPM column (whether 400 RPM intervals or 250-500 RPM intervals), hold the RPM and log for approximately 3-5 seconds. Do not worry if RPM is off by +/- 50 RPM or even by 100.

Nissan Z is the officially licensed 50th anniversary history of Nissan's legendary Z family of sports cars.

The Gospel of Thomas -- found in 1945 -- has been described as "without question the most significant Christian book discovered in modern times." Often Thomas is seen as a special independent witness to the earliest phase of Christianity and as evidence for the now-popular view

that this earliest phase was a dynamic time of great variety and diversity. In contrast, Mark Goodacre makes the case that, instead of being an early, independent source, Thomas actually draws on the Synoptic Gospels as source material -- not to provide a clear narrative, but to assemble an enigmatic collection of mysterious, pithy sayings to unnerve and affect the reader. Goodacre supports his argument with illuminating analyses and careful comparisons of Thomas with Matthew and Luke. Watch the trailer:

nanotechnology in the field. The range of applications covered is diverse, encompassing drug and gene delivery, tissue engineering, antibacterial strategies, dentin tissue stabilization, dentin pulp regeneration and use in restorative and endodontic materials. Important scientific background information relating to each application is provided, with clear coverage of basic principles. In addition, potential pitfalls are identified and explained. The cytotoxicity of nanomaterials and nanoparticles is also addressed in a separate
