Farrah Miller and Cody "Casper" Butler have a longstanding relationship that both refuse to discuss. It isn't romantic. It may not even be classified as a friendship. Casper's been saving Farrah from herself for longer than he'd care to admit, watching silently as she drowned herself in alcohol and bad decisions. Then when she finally got her act together, he left. He told himself he was giving her time to sort herself out. He tried to give her space. But getting shot in the chest can change a man's perspective, and Casper's done waiting. When he shows up on her doorstep one night, everything changes. He's the man who's seen her at her very worst. She's his weakness. He runs when things get hard. She never lets anyone see below the surface and is terrified of being abandoned. Casper knows it's a long shot, that there's a good chance she'll never drop her guard for him- but he has to try. Because a life with Farrah is exactly what he wants...

Even if he has to fight her for it.

How could someone make decision after decision attempting to get away from their past and somehow end up right back where they started? When Brenna decided to leave the only life she'd ever known, she swore she'd never go back. Now, five years later, she's running from her clean-cut husband straight back to the motorcycle club that raised her... and the man she left behind. She left with a secret, and the truth will soon break her carefully constructed life wide open. Warning: This book contains graphic sex and language, and the loss of a child. It is meant for mature audiences.

Asa and Callie had nothing in common. He was an Ace, raised in the club and loyal to it above all else. She was a high school student with braces on her teeth and a narrow view of the world. They should have never crossed paths. But when Callie decides to defy her parents, and Asa goes on an errand for the club, their lives collide. He saves her, and she mesmerizes him. They part believing they'll never see each other again. Neither could have predicted the chain of events they'd put in motion. Now the two have to navigate the dark waters of a relationship built on tragedy and need without drowning in guilt for things outside their control. How do you love someone when the worst decision of your life was the reason you met them?

Patrick Gallagher's future was mapped out—and it didn't include Amy Henderson or the IRA. She was everything he'd never wanted. Too young. Too naïve. Unfortunately, he couldn't help but be fascinated by the girl who took refuge in his old bedroom, staying with his mum more often than not. She looked like a Renaissance painting and argued like a solicitor. He couldn't resist her, and before long he didn't

even want to. Instead, he loved her unreservedly... then he married her. But he couldn't have prepared for what happened after. Actions, no matter how large or how small, have consequences—and when the IRA comes knocking, he's sucked into a life that he'd never anticipated. Choices were made. Hearts were broken. Trust was shattered. Lives were lost. Through it all, he loved her. It was a love that spanned decades. Epic. Intense. Unquestionable. Unbreakable. Warning: This book is meant for readers over 18 years old and contains scenes that depict torture and sexual assault.

Tommy Hawthorne thought Heather Collins was sexy. It didn't matter what color her hair was or how many piercings she added to her face. She just did it for him. Unfortunately, when they were kids she only had eyes for his baby brother, and when Mick died, Tommy lost all contact with Heather. A few years later, they're thrown together when the Aces and Eights Motorcycle Club goes on lockdown. Tommy isn't the cocky boy Heather remembered. He's angry with the world, and he can't seem to harness his rage or the nightmares that wake him up in a cold sweat every night. But one thing hasn't changed. He still wants Heather.

Bellatrix White had loved Cameron Harrison for as long as she could remember. He was her best friend and her closest confidant, and she knew one day he'd be her forever. Then he broke her heart. After five years of complete silence between them, the motorcycle club they grew up in comes under attack, giving Cam the opportunity he needs to work his way back into Trix's life. Because while Trix was nursing her broken heart, Cam was realizing exactly what he'd given up. They fall into a relationship easily, but when new tragedies mix with old memories, neither of the lovers are

prepared for the fallout.

Will Hawthorne has been running since the day his baby brother was killed. He takes the jobs no one else wants, pitches in when he's needed and never complains, all in an effort to win back the trust of his brothers at the Aces and Eights Motorcycle Club. Then he catches sight of Molly Duncan across a crowded bar. He'd grown up with her, known her when she had lopsided pigtails and buck teeth, and had watched uninterested as she'd caught the eye of their high school football star. She'd also been his nurse on the worst night of his life. He wants her and he gets her... and it's better than he could have ever imagined. But Molly isn't interested in his life at the MC. She's got her own life as a nurse and a single mom to her little girl. As Molly and Will grow closer, Will is pulled in two different directions. Life with the Aces or life with Molly and her daughter. When he leaves Molly without a word, his decision is clear. He knows immediately that it was the wrong one. Unfortunately for Will, a strong woman like Molly doesn't forgive easily.

Based on Gabor Maté's two decades of experience as a medical doctor and his groundbreaking work with the severely addicted on Vancouver's skid row, *In the Realm of Hungry Ghosts* radically reenvision this much misunderstood field by taking a holistic approach. Dr. Maté presents addiction not as a discrete phenomenon confined to an unfortunate or weak-willed few, but as a continuum that runs throughout (and perhaps underpins) our society; not a medical "condition" distinct from the lives it affects, rather the result of a complex interplay among personal history, emotional, and neurological development, brain chemistry, and the drugs (and behaviors)

of addiction. Simplifying a wide array of brain and addiction research findings from around the globe, the book avoids glib self-help remedies, instead promoting a thorough and compassionate self-understanding as the first key to healing and wellness. In the Realm of Hungry Ghosts argues persuasively against contemporary health, social, and criminal justice policies toward addiction and those impacted by it. The mix of personal stories—including the author's candid discussion of his own "high-status" addictive tendencies—and science with positive solutions makes the book equally useful for lay readers and professionals.

In this heartfelt memoir, six-time Grammy Award-winning artist and star of WE TV's reality hit *Braxton Family Values*, Toni Braxton writes about her personal life decisions and their impact on her health, family and career. While Braxton appears to be living a gilded life—selling 60 million records, appearing in sold-out Las Vegas performances and hit shows like *Dancing with the Stars*, and starring in her own reality series—hers is in fact a tumultuous story, a tale of triumph over a life filled with obstacles, including two bankruptcy filings. The mother of an autistic child, Braxton long feared that her son's condition might be karmic retribution for earlier life choices, some of which will shock fans. But when heart ailments began plaguing her at the age of 41 and she was diagnosed with Lupus, Braxton knew she had to move beyond the self-recrimination and take charge of her own healing. Intensely honest and deeply inspirational, *Unbreak My Heart* is the never-before-told story of the measures Braxton took to make herself and her family whole again.
