Found in the 1990 to 1996 Nissan 300ZX twin turbos, the Nissan VG30DETT is a robust, sturdy engine right out of the box. The VG30DETT like many Japanese engines of the era is pretty stoutly overbuilt in stock form, making it an excellent candidate for wringing high power levels out of it. In its time, the engine was a work of art, featuring aluminum heads with 2 quench pads per chamber, a 45 degree included angle pent roof combustion chamber and two overhead cams per cylinder bank.
