Engineering Economics and Costing – Courseware ...

An engineering economic analysis may involve many types of costs. Here is a list of cost types, including definitions and examples. A fixed cost is constant, independent of the output or activity level. The annual cost of property taxes for a production facility is a fixed cost, independent of the production level and number of employees.

Engineering Costs - Oxford University Press

Economic efficiency (%) = $\frac{\text{Output}}{\text{Input}} \times 100 = \frac{\text{Worth}}{\text{Cost}} \times 100$ ‘ Worth ’ is the annual revenue generated by way of operating the business and ‘ cost ’ is the total annual expenses incurred in carrying out the business. For the survival and growth of any business, the economic efficiency should be more than 100%.
