Synopsis. When, in 198486, Richard P. Feynman gave his

famous course on computation at the California Institute of

Technology, he asked Tony Hey to adapt his lecture notes

into a book. Although led by Feynman, the course also

featured, as occasional guest speakers, some of the most

brilliant men in science at that time, including Marvin Minsky,

Charles Bennett, and John Hopfield.

From 1983 to 1986, the legendary physicist and teacher Richard Feynman gave a course at Caltech called "Potentialities and Limitations of Computing Machines." Although the lectures are over ten years old, most of the material is timeless and presents a "Feynmanesque" overview of many standard and some not-so-standard topics in computer science.
