The GY6 engine design is a four-stroke single-cylinder in a near horizontal orientation that is used on a number of small motorcycles or scooters made in Taiwan, China, and other southeast Asian countries. It has since become a generic technology. Kymco went on to produce Honda clones such as the Pulsar (CB125), made to Honda standards, as part of their range.

Scooter Service And Repair Manuals

First off I have a Chinese scooter and I know they get a lot of bashing, I hear from everyone I ever ask a question about it from. However it works mostly and gets me to work and back. So, first off, my manual states that I should be using 10w 40 oil in my engine, however my engine has a sticker on it that says to use 15w 40.

GY6 Engine oil question. : scooters
