The goal of this resource manual is to help students understand crime, the origins of criminological theory, the emergence of sociological criminology and the subcultures of delinquency. It also provides information on the different types of crimes that exist.

Silberberg's Principles of General Chemistry offers students the same authoritative topic coverage as its parent text, Chemistry: The Molecular Nature of Matter and Change. The Principles text allows for succinct coverage of content with minimal emphasis on pedagogic learning aids. This more streamlined approach to learning appeals to today's efficiency-minded, value-conscious instructors and students without sacrificing depth, clarity, or rigor.

Essentials of Paramedic Care, 2nd edition, is the first text program to take students beyond the skills necessary to practice as a paramedic and into the underlying principles upon which those practices are based. Correlated to the U.S. Department of Transportation's 1998 National Standard Curriculum for EMT-Paramedic, this text provides the background content and skills coverage required for paramedic education. The text, comprised of five divisions, covers all eight modules of the curriculum. Division 1: Introduction to Advanced Prehospital Care (includes Airway Management) Division 2: Patient Assessment Division 3: Trauma Emergencies Division 4: Medical Emergencies Division 5: Special Considerations/Operations (includes Assessment-Based Management)
