The text presents all systems together, making it easier for you to see how automotive systems are intertwined and connected. The text's 40 short chapters divide the content into individual topics to make it easier for you to learn and master the material. Offering a solid foundation in the basics, this text uniquely addresses simple inspection and service procedures without being overwhelming.

Covering each area of automotive service, this book will help readers learn how all of the systems within automotive are connected. Our revised format with smaller sections will make it easier for readers to learn and master the content. Sidebar content provides real world examples of how the content is applied in the automotive service industry. There are also revised photos throughout the text as opposed to line art to help trainees better understand the system and the components involved. In addition, the diagnostic approach to this book helps readers enhance their troubleshooting skills. Perfect for someone just starting out in the industry, this book has a brand new section on Careers in the Automotive Service Area as well as updated information in the section on Tools, Shop Equipment and Measuring.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Automotive Electricity and Electronics, Fourth Edition, provides complete coverage of the parts, operation, design, and troubleshooting of automotive electricity and electronics systems. Real examples and full color images throughout the text offer readers a practical approach to the diagnosis and repair of the NATEF tasks for the Automotive Electricity/Electronic Systems (A6) content area. Thoroughly revised and updated, the fourth edition has been peer reviewed by automotive instructors and experts in the field to ensure technical accuracy. This text is fully integrated with MyAutomotiveKit—an online resource for instructors and students that provides time-saving help for homework, quizzing, testing, multimedia activities, and videos. James Halderman and James Linder are experts in their field. Their book is designed to help students studying for qualifications in Engine Performance and Drivability, Fuel Emissions System and Automotive Principles.

Prepare tomorrow's automotive professionals for success. Automotive Electrical and Engine Performance covers content and topics specified for both Electrical/Electronic System (A6) and Engine Performance (A8) by ASE/NATEF, as well as the practical skills that technicians must master to be successful in the industry. Tomorrow's automotive professionals get a firm background in the principles and practices of diagnosing and troubleshooting automotive electrical, electronic, and computer systems in a clear, concise format at a level of detail that far exceeds most other texts in the area. Formatted to appeal to today's technical trade students--and ideal as a reference and resource for today's automotive technicians--Halderman's text uses helpful tips and visuals to bring concepts to life and guide readers through actual, on-the-job procedures. To ensure that readers are current, all of the content has been updated to correlate to the latest NATEF tasks and ASE areas; many new full-color line drawings and photos have been added; a new chapter covers gasoline direct injection (GDI) systems; and new, updated, or expanded information has been included on OSHA hazardous chemical labeling requirements; electrical circuits; GM low-speed GMLAN; fuel pump diagnosis; fuel injection diagnosis; OBDII diagnosis; permanent (Mode \$0A) diagnostic trouble codes; and electric vehicle (EV) and plug-in hybrid electric vehicle (PHEV) charging. Four new appendixes provide a sample Electrical/Electronic systems ASE-type certification test with answers; a sample A8 Engine Performance ASE-type certification test with answers; an NATEF correlation chart showing all MLR, AST, and MAST tasks for electrical/electronic systems (A6) in one chart; and an NATEF correlation chart showing all MLR, AST, and MAST tasks for engine performance (A8) in one chart.
