Learn to make LightWave work efficient and inspirational! Written by renowned LightWave trainer, artist, and author Dan Ablan, this guide uses valuable real-world exercises to teach important features and functionality's of LightWave 7. Extends the knowledge of the reader on how to make LightWave work for them by enhancing productivity and reducing frustration.

Contains a compendium of the most frequently used data in day-to-day telecommunications engineering work: tables, graphs, figures, formulae, nomograms, performance curves, standards highlights, constants and statistics. Designed for easy and rapid access. Comprehensive reference for designing, building, purchasing, using or maintaining all kinds of telecommunications systems. Central source of information on transmission, switching, traffic engineering, numbering, signaling, noise, modulation and forward error correction.
