Analyzing wage policies and the political ideas that underlie them, including the irony of an Iraq funding bill leading to a minimum wage increase, this book compares not only Federal but State minimum wage policies and those of Britain as well. Going beyond the debate on public expenditure programs, the author examines the future of the "welfare state"? not from a perspective of entitlement but of citizenship in a public polity.

The US Supreme Court's 1937 decision in West Coast Hotel v. Parrish, upholding the constitutionality of Washington State's minimum wage law for women, had monumental consequences for all American workers. It also marked a major shift in the Court's response to President Franklin D. Roosevelt's New Deal agenda. In Making Minimum Wage, Helen J. Knowles tells the human story behind this historic case. West Coast Hotel v. Parrish pitted a Washington State hotel against a chambermaid, Elsie Parrish, who claimed that she was owed the state's minimum wage. The hotel argued that under the concept of "freedom of contract," the US Constitution allowed it to pay its female workers whatever low wages they were willing to accept. Knowles unpacks the legal complexities of the case while telling the litigants' stories. Drawing on archival and private materials, including the unpublished memoir of Elsie's lawyer, C. B. Conner, Knowles exposes the profound courage and resolve of the former chambermaid. Her book reveals why Elsie—who, in her mid-thirties was already a grandmother—was fired from her job at the Cascadian Hotel in Wenatchee, and why she undertook the outsized risk of suing the hotel for back wages. Minimum wage laws are "not an academic question or even a legal one," Elinore Morehouse Herrick, the New York director of the National Labor Relations Board, said in 1936. Rather, they are "a human problem." A pioneering analysis that illuminates the life stories behind West Coast Hotel v. Parrish as well as the case's impact on local, state, and national levels, Making Minimum Wage vividly demonstrates the fundamental truth of Morehouse Herrick's statement.

Constantly evolving, and with far-reaching implications, European Union policy-making is of central importance to the politics of the European Union. From defining the processes, institutions and modes through which policy-making operates, the text moves on to situate individual policieswithin these modes, detail their content, and analyse how they are implemented, navigating policy in all its complexities. Exploring the link between the modes and mechanisms of EU policy-making and its implementation at national level, Policy-Making in the Europe Union helps students to engage with the key issues related to policy. Written by experts, for students and scholars alike, this is the most authoritative andin-depth guide to policy in the European Union.

Provides an annual assessment of labour market developments and prospects in the OECD area. This edition includes chapters on regional disparities in labour markets, employment in the service economy, unemployment benefits, and self-employment. A Statistical Annex is provided.

More than half of the 41 million foreign-born individuals in the United States today are noncitizens, half have difficulty with English, a quarter are undocumented, and many are poor. As a result, most immigrants have few opportunities to make their voices heard in the political process. Nonprofits in many cities have stepped into this gap to promote the integration of disadvantaged immigrants. They have done so despite notable constraints on their political activities, including limits on their lobbying and partisan electioneering, limited organizational resources, and dependence on government funding. Immigrant rights advocates also operate in a national context focused on immigration enforcement rather than immigrant integration. In Making Immigrant Rights Real, Els de Graauw examines how immigrant-serving nonprofits can make impressive policy gains despite these limitations. Drawing on three case studies of immigrant rights policies—language access, labor rights, and municipal ID cards—in San Francisco, de Graauw develops a tripartite model of advocacy strategies that nonprofits have used to propose, enact, and implement immigrant-friendly policies: administrative advocacy, cross-sectoral and cross-organizational collaborations, and strategic issue framing. The inventive development and deployment of these strategies enabled immigrant-serving nonprofits in San Francisco to secure some remarkable new immigrant rights victories, and de Graauw explores how other cities can learn from their experiences.

Economics for Today 6e simplifies the array of confusing economic analyses and presents a straightforward and balanced approach that effectively teaches the application of basic economics principles. Only essential material is included in the book and key concepts are explained in clear and simple terms. Written in an engaging and user-friendly manner, the book is designed for non-majors (although can also be used in these courses) with a continued focus on ethics in economics, sustainability and environmental economics, housing stress, development, health, happiness and debt crises. Economics for Today 6e is also available in MindTap, a personalised eLearning solution. MindTap provides interactive graph builders, online tests, video content and access to Aplia to build student confidence and give you a clear picture of their progress.
