Chapter 1: Answers to Questions and Problems

Study of Managerial Economics helps in enhancement of analytical skills, assists in rational configuration as well as solution of problems. While microeconomics is the study of decisions made regarding the allocation of resources and prices of goods and services, macroeconomics is the field of economics that studies the behavior of the economy as a whole (i.e. entire industries and economies).

Managerial Economics - Fundamental and Advanced Concepts

Managerial economics uses economic theory to solve business decision-making problems. Economic theory has been broadly divided into microeconomics and macroeconomics. Briefly, microeconomics deals with the theory of decision-making by individual consumers, resource owners and business firms in a free market economy.

Business Decision-Making Problems (With Diagram)

posts and make problems out of them. I give the problems to students in class and then ask the students to solve the problems (usually 2-3 minutes), and then ask them to turn to their neighbors to “make sure they got the right answer.” I then debrief the problem myself. Have a couple of video links to show students if class slows down.
