Besides, this publication comes in to address the gaps that face the peri-urban spaces that are facing population explosion and require innovative ways of dealing with mostly non-sewered sanitation services. This guide/manual was developed as part of a training package to support business development skills training for local sanitation entrepreneurs in Kenya. Financial and technical support was provided by the United States Agency for International Development (USAID) under the Kenya integrated water and sanitation (KIWASH) project. KIWASH was a five year (2015-2020) project implemented by the Development Alternatives Incorporation (DAI) across nine counties. One of the key goals of KIWASH was to help trigger and activate demand for low cost affordable sanitation technologies in rural and low income communities.
