What market is Peavey
targetting According to
their manual, the PV-1200 is
meant for Commercial and
Industrial Installations as
well as Studio and Home Use.
By commercial installations,
I take it to be places where
businesses are conducted,
like a shopping mall. Now
it's beginning to make some
sense.

engineeringstudymaterial.net*
How the PV-1200 was blown. The most obvious clue is the 100 ohm resistor at the output of the front end 4560 opamp. It's burnt crisp. This can only come about when the amp is driven beyond it's limits. It probably caused the pre-drivers to fail, thus triggering a chain reaction.
