Review of Hong De-Yuan, Peonies of the World, Taxonomy and ...
In 2010 Hong De-Yuan published Peonies of the World Taxonomy and Phytogeography, a scholarly, well-researched peony monograph focused on peony taxonomy and peony habitats. He followed this with the publication of Peonies of the World, Polymorphism and Diversity in 2011. Hong lists 33 species with 15 subspecies, for a total of 48.

Peony Species - The American Peony Society-A World of Peonies
The genus Paeonia, sole representative of the family Paeoniaceae, is widely distributed around the northern hemisphere from southern Europe through Eurasia into China, Japan and western North America. Despite comprising only about thirty species, the large, vivid Paeonia blooms are familiar in gardens, botanical art and the cut-flower trade.

Peonies of the world : taxonomy and phytogeography (Book ...
Species peonies are the wild plants that served as the first generation parents of our modern day hybrids and are now rare in nature. These gems of the genus Paeonia have seen a resurgence in popularity and are in high demand by gardeners worldwide. Both woody and herbaceous groups are represented among the species, all with somewhat more exacting needs than their hybrid offspring.

Species Peonies | American Peony Society
This is the second part of the three volume set monograph Peonies of the World, a comprehensive taxonomic revision of the genus Paeonia. Part of Hong De-Yuan's extensive field work on the distribution of the genus Paeonia, and supported by the National Geographical Society, this book contains 356 colour photographs, taken from natural sites, covering all 32 species and 26 subspecies ...
