This comprehensive resource provides up-to-date political coverage of every country and political entity in the world today. It incorporates all the major global and regional changes following the decolonization of Hong Kong in 1997, recent leadership changes in China and Russia, the results of the Dayton Peace Accord, the rise of the New Labor Party in the UK, the 1999 elections in Israel and South Africa, and the continued search for peace in the Middle East and Northern Ireland. The economic crisis in Asia and the widespread growth of world nuclear powers are also covered.

Describes the characteristics of historical and contemporary political systems from around the world, examining different government structures, the evolution of politics over time, and what makes a government successful.

What is democracy? Under what conditions does it thrive? What are the consequences of democracy? This book aims to answer these questions and more by exploring different varieties of democracies around the world. It starts with definitions of democracy and then divides the concept into three dimensions, which provide a framework for the study of democracy in all its forms. These dimensions form the three main sections of the book: *constitutional democracy which explores political rights *participatory democracy which focuses on participation of citizens *egalitarian democracy which examines outcomes of democracy in terms of equality. Democracy concludes by surveying the findings of this empirical study and a discussion on the meanings and consequences of democracy in a globalizing world.
