In the deepest part of our hearts and souls is the desire to love well. Yet in our struggle to do so, we learn that, as Mike Mason puts it, "We are not born with love; it is something we must learn." Now, in Practicing the Presence of People, he helps us launch that learning process. Mason points the way to fresh knowledge and fresh experience, showing how we can discover new things about those we love, understand them from the inside out, tenderly identify with their weaknesses, and celebrate that they too were lovingly made by the hand of God.

To make the journey into the Now we will need to leave our analytical mind and its false created self, the ego, behind. From the very first page of Eckhart Tolle's extraordinary book, we move rapidly into a significantly higher altitude where we breathe a lighter air. We become connected to the indestructible essence of our Being, "The eternal, ever present One Life beyond the myriad forms of life that are subject to birth and death." Although the journey is challenging, Eckhart Tolle uses simple language and an easy question and answer format to guide us. A word of mouth phenomenon since its first publication, The Power of Now is one of those rare books with the power to create an experience in readers, one that can radically change their lives for the better.
