Eight radical solutions for the water shortage - BBC News

Water Management in Las Vegas: a Water Scarcity Solution. Water management was also the reason for the excavation of a tunnel under Lake Mead near Las Vegas. Also built by Salini Impregilo, water is drawn from a pipe fixed at the bottom of the lake, fed to the tunnel and then sent to a treatment plant before going to the city. By taking water from the bottom of the lake, the city does not risk running dry when the surface level of the lake goes down in times of drought.
