Popularized in the bestselling book *The Devil in the White City*, H. H. Holmes has gone down in history as America's first--and possibly most prolific--serial killer. A master swindler who changed names about as often as most people change coats, Holmes built a three-story building down the street from the World's Fair site in Chicago in the early 1890s. Join Chicago paranormal authority Adam Selzer as he separates the truth behind the myth. Did H. H. Holmes really kill 200 people? How did he do it? And why? How did he keep his three wives from finding out about each other? And how did he kill people in such a crowded building without anyone noticing? This e-book includes an excerpt from Adam Selzer's popular book *Your Neighborhood Gives Me the Creeps*.

From Chicago historian Adam Selzer, expert on all of the Windy City's quirks and oddities, comes a compelling heavily researched anthology of the stories behind its most fascinating unsolved mysteries. To create this unique volume, Selzer has collected forty unsolved mysteries from the 1800s to modern day. He has poured through all newspaper, magazine, and book references to them, and consulted expert historians. Topics covered include who really started the great Chicago fire, who was the first "automobile murderer," and even if there was actually a vampire slaying at Rose Hill cemetery. The result is both a colorful read to get lost in, a window to a world of curiosity and wonder, as well as a volume that separates fact from fiction--true crime from urban legend. Complementing the gripping stories Selzer presents are original images of the crime and its suspects as developed by its original investigators. Readers will marvel at how each character and crime were presented, and happily journey with Selzer as he presents all facts and theories presented at the time of the "crime" and uses modern hindsight to assemble the pieces.

America's first and most notorious serial killer and his diabolical killing spree during the 1893 World's Fair in Chicago, now updated with a new afterword discussing Holmes' exhumation on American Ripper. H. H. Holmes: The True History of the White City Devil is the first truly comprehensive book examining the life and career of a murderer who has become one of America's great supervillains. It reveals not only the true story but how the legend evolved, taking advantage of hundreds of primary sources that have never been examined before, including legal documents, letters, articles, and records that have been buried in archives for more than a century. Though Holmes has become just as famous now as he was in 1895, a deep analysis of contemporary materials makes very clear how much of the story as we know came from reporters who were nowhere near the action, a dangerously unqualified new police chief, and, not least, lies invented by Holmes himself. Selzer has unearthed tons of stunning new data about Holmes, weaving together turn-of-the-century America, the killer's background, and the wild cast of characters who circulated in and about the famous "castle" building. This book will be the first truly accurate account of what really happened in Holmes's castle of horror, and now includes an afterword detailing the author's participation in Holmes' exhumation on the TV series, *American Ripper*. Exhaustively researched and painstakingly brought to life, H. H. Holmes will be an invaluable companion to the upcoming Martin Scorsese and Leonardo DiCaprio movie about Holmes's murder spree based on Erik Larson's *The Devil in the White City*.

Before I cut loose on this story for some readers that may never heard of one of the most evil men in America his name is H.H. Holmes who is the first documented serial killer in the United States. During the 1893 Columbia Exposition he lured his victims into his "Murder Castle" that was built to his expectations with gas jets piped into some rooms to gas his victims and also trapdoors and chutes that he could move the bodies down to the basement so he could burn his victims and sell their skeletal remains for money. It is said that he killed over two hundred women or maybe more. H.H. Holmes was sentenced by hanging on May 7, 1896 and buried at the Holy Cross cemetery in Delaware County Pennsylvania. The story begins here now that we have some background on H.H. Holmes. Fast forward to 1976 when Jason Keller decided to write his first novel on serial killer H.H. Holmes, but just writing about him wasn't enough for him so he decided to pay a visit to the murder castle to get his creative juices flowing. When Jason arrived at the very spot where murder castle once stood he was disappointed to find out it had burned down long ago and was now a post office. Instead of getting back in his car and driving off he decided to go inside the post office and ask the post master if there was any existing part of murder castle still part of the foundation and if H.H. Holmes could still be haunting this place. Jason interviewed some of the employees at the post office to see if they ever had a ghostly encounter with H.H. Holmes ghost but after interviewing many of them he wasn't getting the information he so desperately needed to start on his novel so he left and headed to the library to read some books on the occult to see if he could somehow bring H.H. Holmes ghost to life and communicate with him so he could be the first author in history to write his novel with the help of a ghost from the past.

An account of the Chicago World's Fair of 1893 relates the stories of two men who shaped the history of the event--architect Daniel H. Burnham, who coordinated its construction, and serial killer Herman Mudgett.

America's first prolific serial killer designed a castle of crime with only murder and malice in mind. A man of many aliases and few scruples, H.H. Holmes horrified the nation. Inspired by the riches of insurance fraud, Holmes murdered men, women, and children across the country. While fairgoers are enjoying the sights, sounds, and aromas of the many markets, halls, and walkways in the scenic Jackson Park, a sinister young man is planning his next murder only three miles away. Doctor H.H. Holmes has built his Murder Castle on a busy Chicago street corner a few years earlier and he is the only person who understands the maze of secret passages, hidden staircases, dark chambers, false partitions, and trap doors on the second floor of The Castle. His victims would not have a chance of escaping. Meanwhile, 6000 miles across the Atlantic Ocean, Jack the Ripper is terrorizing the streets of London. Many people would later ask if it was a coincidence that the Ripper murders took place in a timeframe when H.H. Holmes was not in Chicago but, in fact, in London.

Eighty-seven (87) restored and sourced, rare historical illustrations and photographs. A fascinating look into the mind of one of America's first serial killers. Born as Herman Webster Mudgett, H. H. Holmes was a horrific killer featured in Erik Larson's popular book, *The Devil in the White City*. Holmes built a three story 'Murder Castle' in Chicago in the late 1800s with death on his mind. A doctor by trade, Holmes lured unsuspecting victims into secret rooms, vaults and gas chambers and made use of a dissection table in his basement. He preyed on travelers that came to Chicago for the World Columbian Exposition in 1893 by advertising rooms for rent and offering employment opportunities. No doubt about it, Holmes earned despicable nicknames such as Arch Fiend, Butcher, Modern Bluebeard, Swindler, and Moral Degenerate. Holmes was a monster in disguise as a doctor, a perfect ruse to lure his victims. After all, who would not trust a doctor? Learn what Holmes personality and thought process was like, straight from the mind of a killer. This three-part book includes Holmes' memoir and his confession of twenty-seven murders. It also has details about his death, unusual burial, and an odd story Holmes told about his reincarnation. Notes, illustration credits, and bibliography are included.

The heinous bloodlust of Dr. H.H. Holmes is notorious -- but only Harold Schechter's *Depraved* tells the complete story of the killer whose evil acts of torture and murder flourished within miles of the Chicago World's Fair. "Destined to be the true crime classic" (*Flint Journal*, MI), this authoritative account chronicles the methods and madness of a monster who slipped easily into a bright, affluent Midwestern suburb, where no one

suspected the dapper, charming Holmes -- who alternately posed as doctor, druggist, and inventor to snare his prey -- was the architect of a labyrinthine "Castle of Horrors." Holmes admitted to twenty-seven murders by the time his madhouse of trapdoors, asphyxiation devices, body chutes, and acid vats was exposed. The seminal profile of a homegrown madman in the era of Jack the Ripper, Depraved is also a mesmerizing tale of true detection long before the age of technological wizardry.
