Charles Palliser

The Quincunx is the epic first novel of Charles Palliser. It takes the form of a Dickensian mystery set in early 19th century England, but Palliser has added the modern attributes of an ambiguous plot and unreliable narrators. Many of the puzzles that are apparently solved in the story have an alternative solution in the subtext.

Palliser, an English professor in Scotland, where this strange yet magnetic work was first published, has modeled his extravagantly plotted narrative on 19th-century forms--Dickens's Bleak House is its most obvious antecedent--but its graceful writing and unerring sense of timing revivifies a kind of novel once avidly read and surely now to be again in demand.

With a huge, colourful cast of characters, *The Quincunx* by British author Charles Palliser is, like Edward Rutherfurd's *London*, the kind of book that comes along all too rarely--a book wherein one loses all sense of the present as one is transported back through history to another time and place.

The Quincunx is 'kind of Dickensian' in the same way that the Taj Mahal is kind of a nifty tomb. Even the name of its central character, John Huffam, is lifted from Palliser's great inspirer, Charles John Huffam Dickens, but so to describe The Quincunx is almost to belittle it.
