Running the War. THE GOVERNMENT of the United States never declared war on the Confederacy, an omission which had odd legal consequences. But it was legality which prevented it from doing so. In Northern eyes, the South was not independent but remained constitutionally part of the Union. The Union could not fight itself or even part of itself.

The War Game is a 1966 British pseudo-documentary film that depicts a nuclear war and its aftermath. Written, directed and produced by Peter Watkins for the BBC, it caused dismay within the BBC and also within government, and was subsequently withdrawn before the provisional screening date of 7 October 1965. The corporation said that "the effect of the film has been judged by the BBC to be too ...

Hailed as the father of today's elite special forces, Robert Rogers was North America's first authentic celebrity. Biographer John F. Ross reconstructs the extraordinary achievements of this fearless and inspiring leader whose exploits in the New England wilderness read like those of an action hero and whose innovative principles of unconventional warfare are still used today. As a child, Rogers learned to survive in New England's dark and deadly forests, grasping that a new world required new forms of warfare. Rogers' Rangers earned a deadly fame among their most formidable French and Indian enemies for their ability to appear anywhere at any time, burst out of the forest with overwhelming force, and vanish just as quickly. The Rangers laid the groundwork for the colonial strategy later used in the War of Independence. Rogers later wrote two seminal books whose vision of a unified continent would influence Thomas Jefferson and inspire Lewis and Clark.--From publisher description.

National bestseller: the ultimate insider account about what really is going on in Iraq. It's the most controversial conflict of our time: a war which has divided citizens, politicians, and militaries, resulted in headlines about torture and suicide bombings, death and destruction. there's no single identifiable enemy and no exit strategy. So how will the war in Iraq be won? What would victory look like?When Australian Major General Jim Molan was deployed to the war to oversee a force of 300,000 troops, including 155,000 Americans, he faced these and other questions on a daily basis. In *Running the War in Iraq* he gives a gripping insider's account of what modern warfare entails - the ghastly body count, the complex decisions which will mean life or death, the divide between political masters and foot soldiers - and the small, hard-won triumphs.

Now, in the most provocative look at the inside of a national election battle ever published, Matalin and Carville, the chief strategists for the Bush and Clinton presidential campaigns, tell their sides of the story, laying bare how politicians and their cohorts really operate--and revealing how their romance flourished in the most unlikely circumstances imaginable. 16 pages of photos.

When the world held its breath It is 25 years since the end of the Cold War, now a generation old. It began over 75 years ago, in 1944long before the last shots of the Second World War had echoed across the wastelands of Eastern Europewith the brutal Greek Civil War. The battle lines are no longer drawn, but they linger on, unwittingly or not, in conflict zones such as Iraq, Somalia and Ukraine. In an era of mass-produced AK-47s and ICBMs, one such flashpoint was Malaya By the time of the 1942 Japanese occupation of the Malay Peninsula and Singapore, the Malayan Communist Party (MCP) had already been fomenting merdeka independence from Britain. The Japanese conquerors, however, were also the loathsome enemies of the MCPs ideological brothers in China. An alliance of convenience with the British was the outcome. Britain armed and trained the MCPs military wing, the Malayan Peoples Anti-Japanese Army (MPAJA), to essentially wage jungle guerrilla warfare against Japanese occupying forces. With the cessation of hostilities, anti-Japanese became anti-British, and, using the same weapons and training fortuitously provided by the British army during the war, the MCP launched a guerrilla war of insurgency. Malaya was of significant strategic and economic importance to Britain. In the face of an emerging communist regime in China, a British presence in Southeast Asia was imperative. Equally, rubber and tin, largely produced in Malaya by British expatriates, were important inputs for British industry. Typically, the insurgents, dubbed Communist Terrorists, or simply CTs, went about attacking soft targets in remote areas: the rubber plantations and tin mines. In conjunction with this, was the implementation of Maos dictate of subverting the rural, largely peasant, population to the cause. Twelve years of counterinsurgency operations ensued, as a wide range of British forces were joined in the conflict by ground, air and sea units from Australia, New Zealand, Southern and Northern Rhodesia, Fiji and Nyasaland.

The US Marines fighting in Korea between 1950 and 1953 were often outflanked and almost always outnumbered-but they were never outwitted. The marines of Dog Company, Second Battalion, Seventh Regiment (D-2-7) and their comrades learned quickly how to fight the erratic enemy's unfamiliar tactics and strategies and the harsh weather conditions in which they operated. Author Frederick P. Frankville, who fought up and down Korea with D-2-7 for nine months in 1950 and 1951, narrates in detail how the regiment succeeded in its mission and helped create a free South Korea. As he demonstrates, the "Dogs" adopted new tactics as they fought to accomplish what marines in every war are trained to do: inflict more pain and suffering on the enemy than they receive in return. In this gripping, graphic, heartbreaking, and sometimes humorous memoir, Frankville shares his experiences and those of his fellow marines in wartime conditions and, more importantly, explores the true meaning of the Marine Corps' motto, *Semper Paratus*—always faithful.

From award-winning author Paul Yoon comes a "spellbinding" (The Washington Post) novel about three kids orphaned in 1960s Laos—and how their destinies are entwined across decades, anointed by Hernan Diaz as "one of those rare novels that stays with us to become a standard with which we measure other books." Alisak, Prany, and Noi—three orphans united by devastating loss—must do what is necessary to survive the perilous landscape of 1960s Laos. When they take shelter in a bombed out field hospital, they meet Vang, a doctor dedicated to helping the wounded at all costs. Soon the teens are serving as motorcycle couriers, delicately navigating their bikes across the fields filled with unexploded bombs, beneath the indiscriminate barrage from the sky. In a world where the landscape and the roads have turned into an ocean of bombs, we follow their grueling days of rescuing civilians and searching for medical supplies, until Vang secures their evacuation on the last helicopters leaving the country. It's a move with irrevocable consequences—and sets them on disparate and treacherous paths across the world. Spanning decades, this "richly layered" (The New York Times Book Review, Editors' Choice) book weaves together storylines laced with beauty and cruelty. Paul Yoon's "greatest skill lies in crafting subtle moments that underline the strange and specific sadness inherent to trauma" (Time) and this book is a breathtaking historical feat and a fierce study of the powers of hope, perseverance, and grace.

This book is a collection of adventures that defined the cold war. The theme of some of these adventures is about how close we came to World War III with nuclear exchanges between China, Russia, and America. The results of some of those stories might have resulted in a non-nuclear war with Russia and America shooting at each other. Our NSA protagonist and his KGB
