Argues that religion is the search for lost intimacy, discusses its connection to the general economy, and examines the sacrifice of war

Despite Georges Bataille’s acknowledged influence on major poststructuralist thinkers—including Foucault, Derrida, Kristeva, Lacan, Baudrillard, and Barthes—and his prominence in literary, cultural, and social theory, rarely has he been taken up by scholars of religion, even as issues of the sacred were central to his thinking. Bringing together established scholars and emerging voices, *Negative Ecstasies* engages Bataille from the perspective of religious studies and theology, forging links with feminist and queer theory, economics, secularism, psychoanalysis, fat studies, and ethics. As these essays demonstrate, Bataille’s work bears

significance to contemporary questions in the academy and vital issues in the world. We continue to ignore him at our peril.

Keuze uit het werk van de Franse filosoof (1897-1962).

Outlines a mystical theology and experience of the sacred founded on the absence of god. Originally published in 1943, *Inner Experience* is the single most significant work by one of the twentieth century's most influential writers. It outlines a mystical theology and experience of the sacred founded on the absence of god. Bataille calls *Inner Experience* a "narrative of despair," but also describes it as a book wherein "profundity and passion go tenderly hand in hand." Herein, he says, "The mind moves in a strange world where anguish and ecstasy take shape." Bataille's search for experience begins where religion, philosophy, science, and literature leave off, where doctrines, dogmas, methods, and the arts collapse. His method of meditation, outlined and documented here, commingles horror and delight. Laughter, intoxication, eroticism, poetry, and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience. This new translation is the first to include *Method of Meditation and Post-Scriptum* 1953, the supplementary texts Bataille added to create the first volume of his *Summa Atheologica*. This edition also offers the full notes and annotations from the French edition of Bataille's *Oeuvres Complètes*, along with an incisive introductory essay by Stuart Kendall that situates the work historically, biographically, and philosophically.

For Bataille, 'the absence of myth' had itself become the myth of the modern age. In a world that had 'lost the secret of its cohesion', Bataille saw surrealism as both a symptom and the

beginning of an attempt to address this loss. His writings on this theme are the result of profound reflection in the wake of World War Two. *The Absence of Myth* is the most incisive study yet made of surrealism, insisting on its importance as a cultural and social phenomenon with far-reaching consequences. Clarifying Bataille's links with the surrealist movement, and throwing revealing light on his complex and greatly misunderstood relationship with Andre Breton, *The Absence of Myth* shows Bataille to be a much more radical figure than his postmodernist devotees would have us believe: a man who continually tried to extend Marxist social theory; a pessimistic thinker, but one as far removed from nihilism as can be. Introduced and translated by Michael Richardson.

An important literary and philosophical figure, Georges Bataille has had a significant influence on other French writers, such as Foucault, Derrida and Baudrillard. *The Thirst for Annihilation* is the first book in English to respond to Bataille's writings. In no way, though, is Nick Land's book an attempt to appropriate Bataille's writings to a secular intelligibility or to compromise with the aridity of academic discourse - rather, it is written as a communion. Theoretical issues in philosophy, sociology, psychodynamics, politics and poetry are discussed, but only as stepping stones into the deep water of textual sacrifice where words pass over into the broken voice of death. Cultural modernity is diagnosed down to its Kantian bedrock with its transcendental philosophy of the object, but Bataille's writings cut violently across this tightly disciplined reading to reveal the strong underlying currents that bear us towards chaos and dissolution - the violent impulse to escape, the thirst for annihilation.

Georges Bataille (1897 - 1962) was a philosopher, writer, and

literary critic whose work has had a significant impact across disciplines as diverse as philosophy, sociology, economics, art history and literary criticism, as well as influencing key figures in post-modernist and post-structuralist philosophy such as Jacques Derrida and Michel Foucault. In recent years, the number of works published on Georges Bataille, as well as the variety of contexts in which his work is invoked, has markedly increased. In *Georges Bataille: Key Concepts* an international team of contributors provide an accessible introduction to and survey of Bataille's thought. The editors' introduction provides an overview of Bataille's work, while the chapters in the first section cover the social, political, artistic and philosophical contexts that shaped his thought. In the second part, each chapter engages with a key theme in Bataille's philosophy, including: art, eroticism, evil, inner experience, heterology, religion, sacrifice, and sovereignty. The final chapter addresses Bataille's literary writings. *Georges Bataille: Key Concepts* is an invaluable guide for students from across the Humanities and Social Sciences, coming to Bataille's work for the first time. Contributors: Giulia Agostini, Elisabeth Arnould-Bloomfield, Tiina Arppe, Marcus Coelen, Simonetta Falasca-Zamponi, Patrick French, Marina Galletti, Nadine Hartmann, Mark Hewson, Andrew Hussey, Stuart Kendall, Claire Nioche, Gerhard Poppenberg, and Michèle Richman.

A radically interdisciplinary inquiry into the origins of human consciousness, community, and potential.

In this comprehensive and engaging study Georges Bataille's central ideas – the sacred, community and eroticism – are explored in detail. Bataille's project to understand social bonds and energies at their most fundamental level and to re-energise society by challenging individualism is argued to be

of continuing relevance to sociological thought. Bataille's infamous Collège de Sociologie is placed in the intellectual context of Durkheimian and Maussian sociology. Social effervescence, gift exchange, and the dual, ambivalent and volatile nature of the sacred emerge as the central threads of Bataille's thought, ideas which challenge both capitalist hegemony and the reductive notion of society as exclusively normative and repressive. The study concludes by applying Bataille's ideas to contemporary issues including de-secularisation and the rise of religious fundamentalism, the vicarious experience of transgressive violence, and finally, to consumerism and the violence of globalisation. The study seeks to reposition Bataille as a key figure in sociological theory.
