From Brooklyn's sizzling restaurant scene, the hottest cookbook of the season... From urban singles to families with kids, local residents to the Hollywood set, everyone flocks to Frankies Spuntino—a tin-ceilinged, brick-walled restaurant in Brooklyn's Carroll Gardens—for food that is "completely satisfying" (wrote Frank Bruni in The New York Times). The two Franks, both veterans of gourmet kitchens, created a menu filled with new classics: Italian American comfort food re-imagined with great ingredients and greenmarket sides. This witty cookbook, with its gilded edges and embossed cover, may look old-fashioned, but the recipes are just what we want to eat now. The entire Frankies menu is adapted here for the home cook—from small bites including Cremini Mushroom and Truffle Oil Crostini, to such salads as Escarole with Sliced Onion & Walnuts, to hearty main dishes including homemade Cavatelli with Hot Sausage & Browned Butter. With shortcuts and insider tricks gleaned from years in gourmet kitchens, easy tutorials on making fresh pasta or tying braciola, and an amusing discourse on Brooklyn-style Sunday "sauce" (ragù), the Frankies Spuntino Kitchen Companion & Kitchen Manual will seduce both experienced home cooks and a younger audience that is newer to the kitchen.

"Are you looking for great ways to include more water in your diet?" "What about fantastic homemade fruit infused waters that take only 5 minutes to make, and are chock full of easy to absorb vitamins and minerals?" Did you know a handful of blueberries a day can not only aid in reducing belly fat, lower blood pressure, protect the heart and brain, boost memory but also act as a natural anti-depressant? They also contain the highest antioxidant capacity of all fruit - which has been found to stifle aging and free radical damage. Making your own fruit infused waters at home allows you to receive the full benefits of each fruit and herb ingredient, as well as the added benefit of knowing exactly what you are consuming. Commercial Vitamin Waters commonly seen in stores and vending machines contain a lot of nasty ingredients (artificial and 'natural' flavourings, artificial colours, artificial sweeteners, synthetic vitamins and preservatives). While these may 'taste great', you are left paying a small fortune for what is essentially glorified sugar water. Given their sugar content, they are truly no better than having a soda. We all need to drink more water, Infused: 26 Spa Inspired Natural Vitamin Waters makes this easier by sorting the recipes in an easy to use format. You'll find natural electrolyte boosters, sports waters, waters that aid in sleep and relaxation, weight loss and detox, healing waters, waters for complexion, and more. These recipes can be consumed by both adults and kids alike, and can be easily and safely used by those following gluten free, dairy free, vegetarian, vegan, paleo, and raw food diets. This book is also for those who are detoxing, cleansing or looking to lose weight. The recipes included in this book are free from common allergens and additives such as dairy, soy, refined sugar, synthetic vitamins, preservatives, high fructose corn syrup, and artificial colours. Winner of the 2015 James Beard Award for Best Beverage Book and the 2015 IACP Jane Grigson Award. A revolutionary approach to making better-looking, better-tasting drinks. In Dave Arnold's world, the shape of an ice cube, the sugars and acids in an apple, and the bubbles in a bottle of champagne are all ingredients to be measured, tested, and tweaked. With Liquid Intelligence, the creative force at work in Booker & Dax, New York City's high-tech bar, brings readers behind the counter and into the lab. There, Arnold and his collaborators investigate temperature, carbonation, sugar concentration, and acidity in search of ways to enhance classic cocktails and invent new ones that revolutionize your expectations about what a drink can look and taste like. Years of rigorous experimentation and study—botched attempts and inspired solutions—have yielded the recipes and techniques found in these pages. Featuring more than 120 recipes and nearly 450 color photographs, Liquid Intelligence begins with the simple—how ice forms and how to make crystal-clear cubes in your own freezer—and then progresses into advanced techniques like clarifying cloudy lime juice with enzymes, nitro-muddling fresh basil to prevent browning, and infusing vodka with coffee, orange, or peppercorns. Practical tips for preparing drinks by the pitcher, making homemade sodas, and building a specialized bar in your own home are exactly what drink enthusiasts need to know. For devotees seeking the cutting edge, chapters on liquid nitrogen, chitosan/gellan washing, and the applications of a centrifuge expand the boundaries of traditional cocktail craft. Arnold's book is the beginning of a new method of making drinks, a problem-solving approach grounded in attentive observation and creative techniques. Readers will learn how to extract the sweet flavor of peppers without the spice, why bottling certain drinks beforehand beats shaking them at the bar, and why quinine powder and succinic acid lead to the perfect gin and tonic. Liquid Intelligence is about satisfying your curiosity and refining your technique, from red-hot pokers to the elegance of an old-fashioned. Whether you're in search of astounding drinks or a one-of-a-kind journey into the next generation of cocktail making, Liquid Intelligence is the ultimate standard—one that no bartender or drink enthusiast should be without.
