So with that said, let's get into Zen and the Art of [DATA EXPUNGED]. Chapter One: Rancid Reasons to Redact. There are many, many, many reasons to redact data. Some of them are good, some of them aren't so much. Let's run through everything I can think of at present (and I'll update as new ones come to mind/are suggested): 1.

Acclaimed as one of the most exciting books in the history of American letters, this modern epic became an instant bestseller upon publication in 1974, transforming a generation and continuing to inspire millions. This 25th Anniversary Quill Edition features a new introduction by the author; important typographical changes; and a Reader's Guide that includes discussion topics, an interview with the author, and letters and documents detailing how this extraordinary book came to be. A narration of a summer motorcycle trip undertaken by a father and his son, the book becomes a personal and philosophical odyssey into fundamental questions of how to live. The narrator's relationship with his son leads to a powerful self-reckoning; the craft of motorcycle maintenance leads to an austere beautiful process for reconciling science, religion, and humanism. Resonant with the confusions of existence, Zen and the Art of Motorcycle Maintenance is a touching and transcendent book of life.

One of the most important and influential books written in the past half-century, Robert M. Pirsig's Zen and the Art of Motorcycle Maintenance is a powerful, moving, and penetrating examination of how we live . . . and a breathtaking meditation on how to live better. Here is the book that transformed a generation: an unforgettable narration of a summer motorcycle trip across America's Northwest, undertaken by a father and his young son. A story of love and fear -- of growth, discovery, and acceptance -- that becomes a profound personal and philosophical odyssey into life's fundamental questions, this uniquely exhilarating modern classic is both touching and transcendent, resonant with the myriad confusions of existence . . . and the small, essential triumphs that propel us forward.

A book which speaks directly to the confusions and agonies of existence, detailing a personal, philosophical odyssey.

Applies Zen philosophies and techniques to uncovering one's talents, assessing career skills, marketing one's abilities, and conducting a job search

Collects 40 famous examples of brush painting and calligraphy that demonstrate Buddhist applications of instructive art, complementing each piece with decoding information and Dharma commentary. Original.

On the Trail of Robert Pirsig's Zen and the Art of Motorcycle Maintenance, Zen and Now is the story of a story that will appeal to the 5 million readers of the original and serve as an initiation to a whole new generation. Since its original publication in 1968, Zen and the Art of Motorcycle Maintenance: An Inquiry into Values has touched whole generations of readers with its serious attempt to define "quality" in a world that seems indifferent to the responsibilities that quality brings. Mark Richardson expands that journey with an investigation of his own -- to find the enigmatic author of Zen and the Art, ask him a few questions, and place his classic book in context. The result manages to be a biography of Pirsig himself -- in the discovery of an unknown life of madness, murder and eventual resolution -- and a splendid meditation on creativity and problem-solving, sanity and insanity.

From masterfully funny and poignant Jordan Sonnenblick, a story that will have everyone searching for their inner Zen. Meet San Lee, a (sort of) innocent teenager, who moves against his will to a new town. Things get interesting when he (sort of) invents a new past for himself, which makes him incredibly popular. In fact, his whole school starts to (sort of) worship him, just because he (sort of) accidentally gave the impression that he's a reincarnated mystic. When things start to unravel, San needs to find some real wisdom in a hurry. Can he patch things up with his family, save himself from bodily harm, stop being an outcast, and maybe even get the girl?

(Book). In this book, the third in the Zen and the Art Of series, Mixerman distills the inescapable technical realities of recording down to understandable and practical terms. Whether musician or self-taught recordist, whether at home or in a full-blown studio complex, you'll discover a definitive blueprint for recording within the current realities of the business, without ever losing focus on the core consideration the music itself. As Mixerman writes: "The moment you start to think in musical terms, your recordings will improve a hundredfold." This enhanced multimedia e-book edition brings recordists deeper into the concepts covered in the text. It features over an hour's worth of supplemental videos in which Mixerman demonstrates various recording techniques in a number of recording spaces. The clips provide invaluable insight into what to listen for when choosing gear and placing mics, and Mixerman walks us through all of this in well over an hour of clips. This multimedia eBook is an absolute must-have for anyone who enjoys recording music and wants to get better doing it. "Mixerman has done it again! With his signature humorous and entertaining style, he imparts a world of invaluable information for the aspiring recordist and musician in an easy to absorb (not overly technical) common sense manner." Ron Saint Germain (300+ million in sales, U2, Whitney Houston, 311) " Zen and the Art of Recording describes an approach rather than a recipe. This is important because in the real world nothing works the same way every time. This is an excellent overview of the issues to be considered along with a broad variety of proven techniques for addressing them." Bob Olhsson (Stevie Wonder, Jackson Five, Marvin Gaye) "It's the videos here that really drive the narrative." Aardvark (Producer of The Daily Adventures of Mixerman Audiobook and Zen RPM) "In the absence of an opportunity to apprentice in a major recording studio, this book is the next best thing. A way to learn from the best." William Wittman (Cyndi Lauper, Joan Osborne, The Fixx)

The gentle wisdom of "Zen and the Art of Happiness" shows how to invite magnificent experiences into your life and create a philosophy that will sustain you through anything. The Zen of doing anything is to behave with a particular state of mind that brings the experience of enlightenment to even everyday facts -- and through that experience, happiness.

Cutting-edge science and spirituality tell us that what we believe, think and feel actually determine the makeup of our body at the cellular level. In Zen and the Art of Happiness, you will learn how to think and feel so that what you think and feel creates happiness and vibrancy in your life rather than gloominess or depression. You'll learn how to adapt to life's inevitable changes, how to deal with stress in a healthy way and how to nurture a mindful happiness in your daily life. Most importantly, the gentle wisdom of Zen and the Art of Happiness will show you how to invite magnificent experiences into your life and create a personal philosophy that will sustain you through anything. A timeless work about the art of happiness, the way of happiness, the inner game of happiness.
